

Assembly Instructions

350 Hepburn Sofa

Page 1 of 2

1) Unpack components and lay them out so they are in the correct orientation according to the configuration you ordered. Seat modules have a curved edge and a flat edge. The curved edge will face outward. Place all seat modules upside down.

2) Place base frame across the modules

3) Ensure that one end of leg base is positioned next to the furthest seam.

4) The seat base has nuts nestled into holes across the center axis. Attach the leg base by slotting all bolts through the holes in leg base and into the nuts in the seat modules. Tighten the bolts slightly, but not completely. Firmly tighten just ONE bolt nearest to end of leg base.

5) Flip the sofa on its side with the completely tightened bolt positioned nearest to the floor. This will allow the other modules to slide down slightly into the correct position.

6) Check that all the modules are aligned, then tighten the remaining bolts completely. This tightening should be repeated several times to ensure the bolts are firmly in place.

7) Once this stage is completed, flip the sofa so it is in its natural position. This should be done by a minimum of two people. Place the cushions on the sofa. Assembly is now complete.

Notes

Parts:

Seat and/or table modules to match your order

Leg bases to match your order

Silver bolts (each module requires 4 bolts)

You will need:

6mm heavy duty Allen Key

Instructions:

NOTE 1 - Be certain that all assembly is carried out on a flat and stable surface. This will ensure a good final result. Reverse the steps to disassemble the piece.

NOTE 2 - Your furniture arrives packed in numerous layers that protect it during transport. It is important that you remove the packaging carefully to avoid damaging your furniture. Refer to our information sheet "Unpacking Your Furniture" for further details.

NOTE 3 - Great care is required when assembling Oak / Walnut products, they can mark very easily if banged or dropped; De La Espada furniture is hand made and no one part is replaceable - if one piece is damaged and has to be replaced, this means the entire unit will require replacement. Use blankets to soften the assembly surface - hard surfaces such as wood or stone flooring - may damage the furniture if in direct contact.

NOTE 4 - We advise that disassembly and assembly of De La Espada furniture is undertaken by a minimum of 2 people.
