

## A FAMILY OF SEATING FOR EATING STUDIOILSE FURNITURE

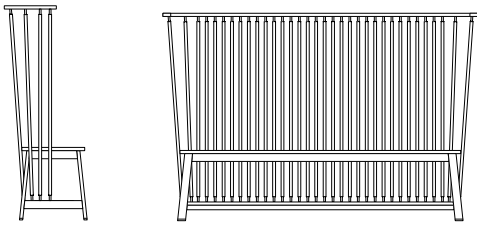

Product information

Our furniture brings people together. The pieces are reassuringly familiar but carefully detailed. Each piece is crafted in solid chestnut, all with copper feet. Produced by De La Espada they are expertly handcrafted in their factory using sustainable sources. Furniture that you can sit on together, but that still leaves room for the individual.

'We believe materials have hidden messages. These create a powerful link to our emotional psyches and shape our connection to daily life. We relish the warm and the synergy of the heart and head, and create places to live and love, eat and sleep, work and play'.
